**July-December
1974**

AMERICAN HEART ASSOCIATION, INC.

Circulation Research

An Official Journal of the American Heart Association

Circulation Research provides a medium for bringing together basic research on the cardiovascular system from various disciplines including biology, biochemistry, biophysics, morphology, pathology, physiology, and pharmacology. The Journal will also accept for publication manuscripts on clinical research that contribute to an understanding of fundamental problems.

Editor

ROBERT M. BERNE, *Charlottesville, Virginia*

Associate Editors

MATTHEW N. LEVY, *Cleveland, Ohio*

KENNETH L. ZIERLER, *Baltimore, Md.*

NICK SPERELAKIS, *Charlottesville, Va.*

Editorial Office: P.O. Box 3488, University Station, Charlottesville, Virginia 22903

Circulation Research

AN OFFICIAL JOURNAL OF THE AMERICAN HEART ASSOCIATION

VOLUME 35

July-December 1974

No. 1 (July)

Brief Reviews: Some Recent Advances in the Study of Hemostasis. Oscar D. Ratnoff	1
Cardiac Myosin Adenosinetriphosphatase of Rat and Mouse: Distinctive Enzymatic Properties Compared with Rabbit and Dog Cardiac Myosin. Yoshio Yazaki and Maurice S. Raben	15
Effects of Obstruction of the Mitral Orifice or Distention of the Pulmonary Vein-Atrial Junctions on Renal and Hind-Limb Vascular Resistance in the Dog. James M. Mason and John R. Ledsome	24
Effect of Prolonged Alcohol Administration on Calcium Transport in Heart Muscle of the Dog. Richard J. Bing, Harald Tillmanns, Jean-Marie Fauvel, Keith Seeler, and James C. Mao	33
Importance of Atrial Compliance in Cardiac Performance. Hiroyuki Suga	39
Protective Action of Methylprednisolone on the Myocardium during Experimental Myocardial Ischemia in the Cat. James A. Spath, Jr., David L. Lane, and Allan M. Lefer	44
Kinetics of the Inhibitory Effect of Pepstatin on the Reaction of Hog Renin with Rat Plasma Substrate. Helmut Orth, Eberhard Hackenthal, Jeffrey Lazar, Ulrike Miksche, and Franz Gross	52
Characteristics of Aortic Diastolic Pressure Decay with Application to the Continuous Monitoring of Changes in Peripheral Vascular Resistance. Maurice J. Bourgeois, Barry K. Gilbert, David E. Donald, and Earl H. Wood	56
Copper Content and Exchange in Mammalian Hearts. Ernest Page, Judy Earley, Lawrence P. McCallister, and Chantal Boyd	67
Effect of Ischemia on Capillary Pressure and Equivalent Pore Radius in Capillaries of the Isolated Dog Hind Limb. John N. Diana and M. Harold Laughlin	77
Studies on the Cardiomegaly of the Spontaneously Hypertensive Rat. Barbara B. Farmer, Robert A. Harris, Walter W. Jolly, and William J. Vail	102
Changes in Coronary Venous Inosine Concentration and Myocardial Wall Thickening during Regional Ischemia in the Pig. Jan Willem de Jong and Sidney Goldstein	111
Instantaneous Pressure-Volume Relationships and Their Ratio in the Excised, Supported Canine Left Ventricle. Hiroyuki Suga and Kiichi Sagawa	117
Regression of Left Ventricular Dilation and Hypertrophy after Removal of Volume Overload: Morphological and Ultrastructural Study. John M. Papadimitriou, Barry E. Hopkins, and Roger R. Taylor	127
Lipoprotein Uptake and Metabolism by Rat Aortic Smooth Muscle Cells in Tissue Culture. Edwin L. Bierman, Olga Stein, and Yechezkiel Stein	136
Instructions to Authors	151
News from the American Heart Association	155

No. 2 (August)

Brief Reviews: A Systems Analysis Approach to Understanding Long-Range Arterial Blood Pressure Control and Hypertension. Arthur C. Guyton, Thomas G. Coleman, Allen W. Cowley, Jr., R. Davis Manning, Jr., Roger A. Norman, Jr., and John D. Ferguson	159
Influence of Muscle Afferents on Cutaneous and Muscle Vessels in the Dog. Denis L. Clement and John T. Shepherd	177
A Model of Cardiac Muscle Dynamics. Edward S. Grood, Robert E. Mates, and Herman Fasseti	184
Right Lymphatic Duct Distribution Volume in Dogs: Relationship to Pulmonary Interstitial Volume. Edward C. Meyer and Rosemarie Ottaviano	197

Relationship of the Functional Refractory Period to Conduction in the Atrioventricular Node. Gregory R. Ferrier and Peter E. Dresel	204
Effect of Propranolol on Blood Pressure and Plasma Renin Activity in the Spontaneously Hypertensive Rat. Barr H. Forman and Patrick J. Mulrow	215
Altered Myocardial Function and Metabolism in Chronic Diabetes Mellitus without Ischemia in Dogs. Timothy J. Regan, Philip O. Ettinger, Mohammad I. Khan, Mohan U. Jesrani, Michael M. Lyons, Henry A. Oldewurtel, and Marilyn Weber ..	222
Coronary and Hemodynamic Effects of Temporary Acute Aortic Insufficiency in Intact Anesthetized Dogs. John D. Folts and George G. Rowe	238
Effect of Digitalis on Carotid Sinus Baroreceptor Activity. John A. Quest and Richard A. Gillis	247
Hypoxic Pulmonary Vasoconstriction: The Necessary Role of Angiotensin II. Steven Berkov	256
Release of Adenosine from Ischemic Brain: Effect on Cerebral Vascular Resistance and Incorporation into Cerebral Adenine Nucleotides. Robert M. Berne, Rafael Rubio, and Richard R. Curnish	262
The Myocardial Depressant Effect of Beta-Receptor Blocking Agents: Comparative Study of dl-Propranolol, d-Propranolol, and Practolol in Awake Dogs with and without Acute Myocardial Infarction. Chang-seng Liang and William B. Hood, Jr. .	272
Autonomic Nervous System and Benign Essential Hypertension: I. Usual Blood Pressure, Catecholamines, Renin, and Their Interrelationships. Jean-Louis Cuche, Otto Kuchel, André Barbeau, Yves Langlois, Roger Boucher, and Jacques Genest .	281
Autonomic Nervous System and Benign Essential Hypertension: II. Circulatory and Hormonal Responses to Upright Posture. Jean-Louis Cuche, Otto Kuchel, André Barbeau, Yves Langlois, Roger Boucher, and Jacques Genest	290
Adenosine 3',5'-Monophosphate-Dependent Membrane Phosphorylation: A Possible Mechanism for the Control of Microsomal Calcium Transport in Heart Muscle. Paul J. LaRaia and Eugene Morkin	298
The Signal Perceived by the Macula Densa during Changes in Renin Release. Ronald H. Freeman, James O. Davis, Robert W. Gotshall, J. Alan Johnson, and William S. Spielman	307
Cyclic Adenosine Monophosphate Modulation of Slow Calcium Influx Channels in Guinea Pig Hearts. August M. Watanabe and Henry R. Besch, Jr.	316
Comparison of Angiotensin II Antagonist and Antiserum Infusion with Nephrectomy in the Rat with Two-Kidney Goldblatt Hypertension. Herbert Thurston and John D. Swales	325
News from the American Heart Association	330
Supplement with this issue: Cardiac Hypertrophy and Cardiomyopathy	

No. 3 (September)

Brief Reviews: The Natural History of Coronary Collateral Development. Donald E. Gregg	335
Onset of Mechanical Activation of Mammalian Heart Muscle in Calcium- and Strontium-Containing Solutions. Dirk L. Brutsaert and Victor A. Claes	345
Evidence of the Limitations of Water as a Freely Diffusible Tracer in Brain of the Rhesus Monkey. John O. Eichling, Marcus E. Raichle, Robert L. Grubb, Jr., and Michel M. Ter-Pogossian	358
Transmural Gradient of Retrograde Collateral Blood Flow in Acutely Ischemic Canine Myocardium. H. Fred Downey, Fouad A. Bashour, A. Jude Stephens, Sarkis J. Kechejian, and Ronald H. Underwood	365
Characterization and Localization of Ventricular Arrhythmias Resulting from Myocardial Ischemia and Infarction. Benjamin J. Scherlag, Nabil El-Sherif, Ronald Hope, and Ralph Lazzara	372

Role of Potassium Ions in the Vascular Response to a Brief Tetanus. David E. Mohrman and Harvey V. Sparks	384
Early and Late Effects of Coronary Artery Occlusion on Canine Purkinje Fibers. Ralph Lazzara, Nabil El-Sherif, and Benjamin J. Scherlag	391
Impaired Autoregulation of Blood Flow and Glomerular Filtration Rate in the Isolated Dog Kidney Depleted of Renin. George J. Kaloyanides, Robert D. Bastron, and Gerald F. DiBona	400
Effect of Verapamil on the Sinoatrial and Atrioventricular Nodes of the Rabbit and the Mechanism by Which It Arrests Reentrant Atrioventricular Nodal Tachycardia. Andrew L. Wit and Paul F. Cranefield	413
A Protein Bound Form of Porcine Renal Renin. Graham W. Boyd	426
A Dissociation of Positive Staircase (Bowditch) from Ouabain-Induced Positive Inotropism: Use of Verapamil. John L. McCans, George E. Lindenmayer, Ronald G. Munson, Randolph W. Evans, and Arnold Schwartz	439
Recovery from Cardiac Bypass and Elective Cardiac Arrest: The Metabolic Consequences of Various Cardioplegic Procedures in the Isolated Rat Heart. David J. Hearse, David A. Stewart, and Ernst B. Chain	448
Acute Effects of Alpha-Methylodpa on Mean Blood Pressure and Plasma Renin Activity. Perry V. Halushka and Harry R. Keiser	458
Relationship of Ventricular Excitability Characteristics to Ventricular Arrhythmias in Dogs. Kenichi Harumi, John Owens, Mary Jo Burgess, and J. A. Abildskov	464
Deleterious Effects of Hypertension on the Development of Aortic and Coronary Atherosclerosis in Stumptail Macaques (<i>Macaca Speciosa</i>) on an Atherogenic Diet. Ruth Pick, Philip J. Johnson, and Gerald Glick	472
A Concurrent Flow Model for Extraction during Transcapillary Passage. James B. Bassingthwaite	483
Participation of Central Serotonergic Neurons in the Control of the Circulation of the Unanesthetized Rabbit: A Study Using 5,6-Dihydroxytryptamine in Experimental Neurogenic and Renal Hypertension. Lindon M. H. Wing and John P. Chalmers	504
News from the American Heart Association	514

No. 4 (October)

Brief Reviews: Reconsideration of the Ultrastructural Basis of Cardiac Length-Tension Relations. Edmund H. Sonnenblick and C. Lynn Skelton	517
Limitation of the Coronary Vascular Response to Ischemia in the Awake Dog. Robert J. Bache, Frederick R. Cobb, and Joseph C. Greenfield, Jr.	527
Effect of Beta-Adrenergic Stimulation on Myocardial Adenine Nucleotide Metabolism. Heinz-Gerd Zimmer and Eckehart Gerlach	536
Increased Metabolic Turnover Rate and Transcapillary Escape Rate of Albumin in Essential Hypertension. Hans-Henrik Parving, Niels Rossing, and Henrik AE. Jensen	544
Relationship of Glucose Metabolism to Adrenergic Transmission in Rat Mesenteric Arteries: Effects of Glucose Deprivation, Glucose Metabolites, and Changes in Ionic Composition on Adrenergic Mechanisms. Kafait U. Malik and John C. McGiff	553
Effect of Theophylline and Adrenergic Blocking Drugs on the Renin Response to Norepinephrine In Vitro. Hector L. Nolly, Ian A. Reid, and William F. Ganong ..	575
Dispersion of Indicator Measured from Microvessels of Cat Mesentery. Stephen H. Nellis and Jen-shih Lee	580
Differential Effects of an Angiotensin II Analogue on Pressor and Adrenal Receptors in the Rabbit. John M. Steele, Jr. and Jerome Lowenstein	592

Stimulation of Vascular Smooth Muscle Sodium, Potassium-Adenosinetriphosphatase by Vasodilators. Constantinos J. Limas and Jay N. Cohn	601
Measured Turbulence and Its Effect on Thrombus Formation. Paul D. Stein and Hani N. Sabbah	608
The Renin-Angiotensin System and Aldosterone Secretion during Sodium Depletion in the Rat. William S. Spielman and James O. Davis	615
Central and Reflex Regulation of Sympathetic Vasoconstrictor Activity to Limb Muscles during Desynchronized Sleep in the Cat. Giorgio Baccelli, Renato Albertini, Giuseppe Mancia, and Alberto Zanchetti	625
Regional and Systemic Hemodynamic Patterns in Rabbits with Neurogenic Hypertension. Natalie Alexander and Vincent DeQuattro	636
Gastrointestinal and Mesenteric Hemodynamic Patterns in Neurogenic Hypertensive Rabbits. Natalie Alexander and Vincent DeQuattro	646
News from the American Heart Association	652

No. 5 (November)

Brief Reviews: Dietary Pulmonary Hypertension. Alfred P. Fishman	657
Special Article: Ben Franklin and Open Heart Surgery. Julius H. Comroe, Jr. and Robert D. Dripps	661
Site and Mechanism of Uptake of ³ H-/Norepinephrine by Isolated Perfused Rat Lungs. Terence E. Nicholas, Judy M. Strum, Lynne S. Angelo, and Alain F. Junod	670
Evidence in Support of Hypoxia but Against High Potassium and Hyperosmolarity as Possible Mediators of Sustained Vasodilation in Rabbit Cardiac and Skeletal Muscle. Miklos Gellai and Reed Detar	681
Cholesteryl Ester Synthesis in Normal and Atherosclerotic Aortas of Rabbits and Rhesus Monkeys. Peter I. Brecher and Aram V. Chobanian	692
Reactive Hyperemia in the Dog Heart: Effects of Temporarily Restricting Arterial Inflow and of Coronary Occlusions Lasting One and Two Cardiac Cycles. Eduards Eikens and David E. L. Wilcken	702
Canine Lipoproteins and Atherosclerosis: I. Isolation and Characterization of Plasma Lipoproteins from Control Dogs. Robert W. Mahley and Karl H. Weisgraber	713
Canine Lipoproteins and Atherosclerosis: II. Characterization of the Plasma Lipoproteins Associated with Atherogenic and Nonatherogenic Hyperlipidemia. Robert W. Mahley, Karl H. Weisgraber, and Thomas Innerarity	722
Accelerated Induction of Two-Kidney Hypertension in Rats and Renin-Angiotensin Sensitivity. Thomas W. Skulan, Armand C. Brousseau, and Kathleen A. Leonard	734
Effect of Variation of Transmural Pressure on the Frequency Response of Isolated Segments of Canine Carotid Arteries. Kenneth J. Hutchison	742
Activation Studies following Experimental Hemiblock in the Dog. John J. Gallagher, Andres R. Ticzon, Andrew G. Wallace, and Jackie Kasell	752
Neurogenic and Humoral Factors Controlling Vascular Resistance in the Spontaneously Hypertensive Rat. Lyman T. Lais, Richard A. Shaffer, and Michael J. Brody	764
Cardiac Hypertrophy in Spontaneously Hypertensive Rats. Subha Sen, Robert C. Tarazi, Philip A. Khairallah, and F. Merlin Bumpus	775
Supernormal Excitability and Conduction in the His-Purkinje System of the Dog. Joseph F. Spear and E. Neil Moore	782
Left Ventricular Stiffness Associated with Chronic Pressure and Volume Overloads in Man. William Grossman, Lambert P. McLaurin, and Miltiadis A. Stefadouros ..	793
News from the American Heart Association	801

No. 6 (December)

Brief Reviews: The Heart in Shock. Donald B. Hackel, Norman B. Ratliff, and Eileen Mikat	805
--	-----

Urinary Kallikrein Excretion in Normal Man: Relationships to Sodium Intake and Sodium-Retaining Steroids. Harry S. Margolius, David Horwitz, Ronald G. Geller R. Wayne Alexander, John R. Gill, Jr., John J. Pisano, and Harry R. Keiser	812
Urinary Kallikrein Excretion in Hypertensive Man: Relationships to Sodium Intake and Sodium-Retaining Steroids. Harry S. Margolius, David Horwitz, John J. Pisano, and Harry R. Keiser	820
Contribution of Recirculation and Fat Diffusion to Myocardial Washout Curves Obtained by External Counting in Man: Stochastic Versus Monoexponential Analysis. Attilio Maseri, Antonio Pesola, Antonio L'Abbate, Carlo Contini, Claudio Michelassi, and Tommaso D'Angelo	826
Pharmacological Characterization of Adrenergic Alpha and Beta Receptors Mediating the Vasomotor Responses of Cerebral Arteries in Vitro. Lars Edvinsson and Christer Owman	835
Relationship between Serum Dopamine- β -Hydroxylase Activity, Catecholamine Metabolism, and Hemodynamic Changes during Paroxysmal Hypertension in Quadriplegia. N. Eric Naftchi, G. Frederick Wooten, Edward W. Lowman, and Julius Axelrod	850
Characterization of Anti-Heart Mitochondria Autoantibodies Produced in Dogs following Myocardial Infarction. Robert E. Kelley, Merle S. Olson, and R. Neal Pinckard	862
Dimensions and Geometric Relationships of the Human Aortic Valve as a Function of Pressure. W. Milton Swanson and Richard E. Clark	871
Influences of Physical Training on the Heart of Dogs. Horace L. Wyatt and Jere H. Mitchell	883
Inhibition of the Vasodilator Effect of Hypercapnic Acidosis by Hypercalcemia in Dogs and Rats. Enoch P. Wei, Marc D. Thames, Hermes A. Kontos, and John L. Patterson, Jr.	890
Regional Myocardial Function during Acute Coronary Artery Occlusion and Its Modification by Pharmacologic Agents in the Dog. Pierre Theroux, Dean Franklin, John Ross, Jr., and William S. Kemper	896
A Combined Morphological and Electrophysiological Study of the Atrioventricular Node of the Rabbit Heart. Robert H. Anderson, Michiel J. Janse, Frans J. L. van Capelle, Jacques Billette, Anton E. Becker, and Dirk Durrer	909
On the Mechanism of Idioventricular Pacemaker Suppression by Fast Drive. Daniel J. Kellenstein, Michael B. Plam, Chandler McC. Brooks, and Mario Vassalle	923
Measurement of Sinoatrial Conduction Time by Premature Atrial Stimulation in the Rabbit. Hugh C. Miller and Harold C. Strauss	935
Vascular Effects of Procaine Amide in the Dog: Predominance of the Inhibitory Effect on Ganglionic Transmission. Phillip G. Schmid, Loren D. Nelson, Donald D. Heistad, Allyn L. Mark, and Francois M. Abboud	948

 Zimmer, H., 536

SUBJECT INDEX

A

- Acetylcholine**
local control of vascular tone, 681
- Acetylcholinesterase**
digitalis and baroreceptor activity, 247
- Acidosis**
inhibition of vasodilator effect of hypercapnic acidosis by hypercalcemia in dogs and rats, 890
- Actin**
ultrastructural basis of cardiac length-tension relations, 517
- Action potentials**
effect of verapamil on SA and AV nodes, 413
measurement of sinoatrial conduction time by premature atrial stimulation in rabbits, 935
- Adenine nucleotide metabolism**
effect of beta-adrenergic stimulation, 536
effects of sugars on sympathetic transmission, 553
- Adenosine**
and cerebral blood flow, 262
reactive hyperemia in dog heart, 702
- Adenosinetriphosphatase (ATPase)**
differences in cardiac myosin ATPase among different laboratory animals, 15
recovery from cardiac bypass and elective cardiac arrest, 448
- Adenylate cyclase**
stimulation of vascular smooth muscle Na^+, K^+ -ATPase by vasodilators, 601
- Adrenergic blocking drugs**
effect of theophylline and, on renin response to norepinephrine in vitro, 575
- Adrenergic receptors**
in brain vessels, 845
pharmacological characterization of, mediating vasomotor responses of cerebral arteries in vitro, 835
- Adrenergic release mechanism**
relationship of glucose metabolism to, in rat mesenteric arteries, 553
- Adrenergic stimulation**
effect on myocardial adenine nucleotide metabolism, 536
- Adrenergic vasomotor tone**
neurogenic and humoral factors in SHR, 764
- Aging**
lipoprotein uptake by cultured aortic cells, 136
- Albumin**
increased metabolic turnover rate and transcapillary escape rate of albumin in essential hypertension, 544
right lymphatic duct distribution volume in dogs, 197
- Alcohol**
effect on calcium transport in heart muscle, 33
- Aldosterone**
differential effects of angiotensin II analogue on pressor and adrenal receptors in rabbits, 592
renin-angiotensin system and aldosterone secretion during sodium depletion in rats, 615
urinary kallikrein excretion in hypertensive man, 820
urinary kallikrein excretion in normal man, 812
- Alpha-receptor blockade**
muscle afferents and peripheral vessels, 177
- Amine metabolism**
norepinephrine uptake by perfused rat lung, 670
- Aminorex**
dietary pulmonary hypertension, 657
- Anesthesia**
effects of alpha-methyl-dopa on mean blood pressure and plasma renin activity, 458
- Angiotensin**
comparison of angiotensin II antagonist and antiserum infusion in rat with two-kidney Goldblatt hypertension, 325
inhibitory effect of pepstatin on release from rat plasma substrate by hog renin, 52
and pulmonary hypertension, 256
- Angiotensin I radioimmunoassay**
effects of alpha-methyl-dopa on mean blood pressure and plasma renin activity, 458
- protein-bound form of porcine renal renin, 426
- Angiotensin II**
differential effects of 1-sar-8-ala angiotensin II and aldosterone, 592
renin-angiotensin system and aldosterone secretion during sodium depletion in rats, 615
vascular effects of procaine amide, 948
- Animals**
- cats**
adenosine and CBF, 262
adrenergic receptors in brain vessels, 835
digitalis and baroreceptor activity, 247
microvascular dispersion of indication, 580
muscle circulation during sleep, 625
strontium and mammalian heart muscle, 345
- dogs**
activation studies following experimental hemiblock, 752
adenosine and CBF, 262
alpha-methyl-dopa and plasma renin activity, 458
anti-heart mitochondria autoantibodies following MI, 862
atrial stretch and vascular resistance, 24
calcium ion-hydrogen ion interactions, 890
coronary collateral blood flow, 335, 365
coronary flow with aortic insufficiency, 238
coronary occlusion arrhythmias, 372
coronary vascular response to ischemia, 527
effect of alcohol on calcium transport in heart muscle, 33
effect of ischemia on capillary pressure and porosity, 77
effects of coronary artery occlusion on Purkinje fibers, 391
excitability and arrhythmias, 464
frequency response of carotid arteries, 742
functional refractory period and conduction in A-V node, 204
influence of muscle efferents on cutaneous and muscle vessels in dogs, 177
influence of physical training on heart, 883
lipoproteins and atherosclerosis, 713, 722
macula densa and renin release, 307
myocardial depressant effect of beta-receptor blocking agents, 272
myocardium function and diabetes, 222
overdrive and Purkinje fiber automaticity, 923
reactive hyperemia in heart of, 702
regional myocardial function during acute coronary artery occlusion, 896
regression of LV dilation and hypertrophy, 127
renin depletion and autoregulation, 400
resistance from aortic diastolic pressure decay, 56
right lymphatic duct distribution volume in dogs, 197
role of potassium ions in vascular response to brief tetanus, 384
stimulation of vascular smooth muscle Na^+, K^+ -ATPase by vasodilators, 601
supernormal excitation and conduction, 782
turbulence and its effect on thrombus formation, 608
vascular effects of procaine amide, 948
- guinea pigs**
cyclic AMP and calcium in guinea pig hearts, 316
- mice**
cardiac copper content and exchange, 67
- monkeys**
cholesteryl ester synthesis in atherosclerotic aorta, 692
deleterious effects of hypertension on diet-induced atherosclerosis, 474
limitations of water as freely diffusible tracer in brain of monkey, 358
- pigs**
inosine production and myocardial function, 111
kinetics of pepstatin and rat angiotensinogen, 52
natural history of collateral development in pig heart, 335
protein-bound form of porcine renal renin, 426
- rabbits**
cardiac copper content and exchange, 67
central serotonergic neurons and circulatory control, 504
cholesteryl ester synthesis, 692

- combined study of A-V, 909
 - differential effects of 1-sar-8-ala-angiotensin II and aldosterone, 592
 - effect of verapamil on myocardial contractility, 439
 - effect of verapamil on SA and AV nodes, 413
 - hemodynamics of sinoaortic denervation hypertension, 636
 - local control of vascular tone, 681
 - measurement of sinoatrial conduction time by premature atrial stimulation, 935
 - role of cyclic AMP in control of microsomal calcium transport, 298
 - splanchnic hemodynamics in hypertension, 646
 - rats**
 - accelerated hypertension and renin-angiotensin sensitivity, 734
 - adenosine and CBF, 262
 - adrenergic drugs and renin release in vitro, 575
 - adrenergic stimulation of nucleotide synthesis, 536
 - angiotensin in two-kidney hypertension, 325
 - calcium ion-hydrogen ion interactions, 890
 - cardiac hypertrophy in SHR, 775
 - cardiac myosin ATPase, 15
 - cardiomegaly in hypertensive rats, 102
 - dietary pulmonary hypertension, 657
 - effect of propranolol on blood pressure and plasma renin activity, 215
 - effects of sugars on sympathetic transmission, 553
 - hypoxic pulmonary vasoconstriction, 256
 - lipoprotein uptake by cultured aortic cells, 136
 - metabolic consequences of various cardioplegic procedures in isolated rat hearts, 448
 - neurogenic and humoral factors controlling vascular resistance in SHR, 764
 - norepinephrine uptake by perfused rat lung, 670
 - renin-angiotensin system and aldosterone secretion during sodium depletion in rats, 615
 - Anodal strength-interval curves**
 - excitability and arrhythmias, 464
 - Antiarrhythmic drugs**
 - vascular effects of procaine amide, 948
 - verapamil and nodal potentials, 413, 439
 - Antihemophilic factor**
 - in hemostasis, 1
 - Aortas**
 - lipoprotein uptake and metabolism by rat aortic smooth muscle cells in tissue culture, 136
 - Aortic insufficiency**
 - coronary and hemodynamic effects of temporary acute aortic insufficiency in dogs, 238
 - Aortic valve**
 - dimensions and geometric relationships, 871
 - Aortocaval fistula**
 - regression of LV dilation and hypertrophy, 127
 - Apolipoproteins**
 - canine lipoproteins and atherosclerosis, 713, 722
 - Arrhythmias**
 - antiarrhythmic drugs, 948
 - verapamil and nodal potentials, 413
 - characterization and localization of ventricular arrhythmias resulting from myocardial ischemia and infarction, 372
 - reentrant
 - effect of verapamil on SA and AV nodes, 413
 - stable ventricular bigeminy, 464
 - ventricular
 - relationship of excitability characteristics to, 464
 - resulting from MI, 372
 - Arteries**
 - effects of temporarily restricting inflow and of coronary occlusions lasting one and two cardiac cycles, 702
 - frequency response of canine carotid arteries, 742
 - Arterioles**
 - calcium ion-hydrogen ion interactions, 890
 - microvascular dispersion of indicator, 580
 - Atherosclerosis**
 - canine lipoproteins and, 713, 722
 - cholesteryl ester synthesis in aorta of rabbits and monkeys, 692
 - deleterious effects of hypertension on diet-induced atherosclerosis, 474
 - lipoproteins uptake and metabolism by cultured aortic cells, 136
 - Atria**
 - effects of distention of pulmonary vein-atrial junctions on renal and hind-limb vascular resistance, 24
 - importance of atrial compliance in cardiac performance, 39
 - measurement of sinoatrial conduction time by premature atrial stimulation, 935
 - Atrial pacing**
 - coronary occlusion arrhythmias, 372
 - Atrioventricular nodes**
 - effect of verapamil on, 413
 - functional refractory period and conduction, 204
 - morphological and electrophysiological study of rabbit heart, 909
 - Atropine**
 - muscle afferents and peripheral vessels, 177
 - Autoantibodies**
 - anti-heart mitochondria autoantibodies produced in dogs following MI, 862
 - Automaticity**
 - effects of coronary artery occlusion on canine Purkinje fibers, 391
 - Autonomic control**
 - muscle afferents and peripheral vessels, 177
 - Autonomic nervous system**
 - and benign essential hypertension, 281
 - Autoradiography**
 - lipoprotein uptake by cultured aortic cells, 136
 - norepinephrine uptake by perfused rat lung, 670
 - Autoregulation**
 - coronary vascular response to ischemia, 527
 - impaired blood flow and glomerular filtration rate in isolated dog kidney depleter of renin, 400
 - muscle circulation during sleep, 625
- B**
- Baroreceptors**
 - carotid, 948
 - central serotonergic neurons and circulatory control, 504
 - digitalis and, 247
 - neurogenic and humoral factors in SHR, 764
 - Beta-adrenergic stimulation**
 - effect on myocardial adenine nucleotide metabolism, 536
 - Beta-receptor blocking agents**
 - myocardial depressant effect of, 272
 - Bigeminy, ventricular**
 - excitability and arrhythmias, 464
 - Blood-brain barrier**
 - adenosine and CBF, 262
 - limitations of water as freely diffusible tracer in brain of monkey, 358
 - Blood coagulation**
 - turbulence and thrombosis, 608
 - Blood flow**
 - concurrent flow model for extraction during transcappillary passage, 483
 - coronary vascular response to ischemia, 527
 - debt repayment, 527
 - hemodynamics in rabbits with neurogenic hypertension, 636
 - impaired autoregulation of blood flow and glomerular filtration rate in isolated dog kidney depleted of renin, 400
 - local regulation of, 681, 890
 - measured turbulence and its effect on thrombus formation, 608
 - splanchnic hemodynamics in hypertension, 646
 - Blood pressure**
 - accelerated hypertension in rats and renin-angiotensin sensitivity, 734
 - angiotensin and two-kidney Goldblatt hypertension, 325
 - cardiac hypertrophy in SHR, 775
 - catecholamines and hemodynamics in quadriplegia, 850
 - central serotonergic neurons in control of circulation, 504
 - coronary flow with aortic insufficiency, 238
 - digitalis and baroreceptor activity, 247
 - effect of propranolol on plasma renin activity in hypertensive rat, 215
 - effects of alpha-methyldopa on mean blood pressure and plasma renin activity, 458

- renin-angiotensin system and aldosterone secretion during sodium depletion in rats, 615
- renin depletion and autoregulation, 400
- systems analysis approach to hypertension and control of, 159
- usual blood pressure, catecholamines, and renin, 281
- See also* Hypertension
- Blood-tissue exchanges**
 - concurrent flow model for extraction during transcapillary passage, 483
- Brain**
 - adrenergic receptors in brain vessels, 835
 - limitations of water as freely diffusible tracer in brain of rhesus monkey, 358
 - release of adenosine from ischemic brain, 262

C

- Caffeine**
 - onset of mechanical activation of mammalian heart muscle in calcium- and strontium-containing solutions, 345
- Calcium**
 - cyclic AMP modulation of slow calcium influx channels in guinea pig hearts, 316
 - effect of alcohol on calcium transport, 33
 - effect of verapamil on myocardial contractility, 439
 - inhibition of vasodilator effect of hypercapnic acidosis by hypercalcemia in dogs and rats, 890
 - onset of mechanical activation of mammalian heart muscle in calcium- and strontium-containing solutions, 345
 - possible mechanism for control of microsomal calcium transport in heart muscle, 298
 - ultrastructural basis of cardiac length-tension relations, 517
- Capillaries**
 - effect of ischemia on capillary pressure and porosity, 77
 - transcapillary escape rate and metabolic turnover rate of albumin in essential hypertension, 544
- Capillary permeability**
 - limitations of water as freely diffusible tracer in brain of monkey, 358
- Capillary-tissue exchange**
 - concurrent flow model for extraction during transcapillary passage, 483
- Cardiac arrest**
 - metabolic consequences of various cardioplegic procedures in isolated rat hearts, 448
 - recovery from cardiac bypass and elective, 448
- Cardiac hypertrophy.** *See* Hypertrophy, cardiac
- Cardiac output**
 - atrial compliance and, 39
 - hemodynamics in rabbits with neurogenic hypertension, 636
 - myocardial depressant effect of beta-receptor blocking agents, 272
- Cardiac work**
 - coronary flow with aortic insufficiency, 238
- Cardiomegaly**
 - in hypertensive rats, 102
- Carotid arteries**
 - effect of variation of transmural pressure on frequency response of isolated segments of canine, 742
- Carotid sinus baroreceptor activity**
 - effect of digitalis on, 247
- Catabolic rate**
 - albumin in essential hypertension, 544
- Catecholamines**
 - adrenergic receptors in brain vessels, 835
 - control of microsomal calcium transport in heart muscle, 298
 - cyclic AMP and calcium in guinea pig hearts, 316
 - neurogenic and humoral factors in SHR, 764
 - relationship between dopamine- β -hydroxylase activity, catecholamines and hemodynamic changes in quadriplegia, 850
 - reversible microsome phosphorylation, 298
 - stimulation of vascular smooth muscle Na^+ , K^+ -ATPase by vasodilators, 601
 - usual blood pressure, renin and, 281
- Cathepsin D**
 - protective action of methylprednisolone in myocardial ischemia, 44
- Catheters and catheterization**
 - research involved in development of, 661
- Cerebral arteries**
 - adrenergic receptors in, 835
- Cerebral blood flow**
 - altered myocardial function in diabetes, 222
 - coronary and hemodynamic effects of temporary acute aortic insufficiency in dogs, 238
 - coronary collateral blood flow, 365
 - inosine production and myocardial wall thickening during regional ischemia, 111
 - limitations of water as freely diffusible tracer in brain of monkey, 358
 - release of adenosine from ischemic brain, 262
- Cerebral ischemia**
 - effect on adenine nucleotide degradation, 262
- Cerebral vasodilation**
 - adenosine and cerebral circulation, 262
- Chemoreceptors**
 - carotid, 948
 - effects of procaine amide on, 948
 - neurogenic and humoral factors in SHR, 764
- Cholesterol**
 - altered myocardial function in diabetes, 222
 - cholesteryl ester synthesis in aorta of rabbits and monkeys, 692
 - deleterious effects of hypertension on diet-induced atherosclerosis, 474
- Chromatography**
 - anti-heart mitochondria autoantibodies, 862
- Circulation.** *See* Blood flow; Collateral circulation
- Clotting process**
 - some recent advances in hemostasis, 1
- Collateral circulation**
 - methods for estimating collateral flow, 335
 - natural history of coronary collateral development, 335
 - transmural gradient of retrograde collateral blood flow in acutely ischemic canine myocardium, 365
- Complement**
 - relationship between blood coagulation and, 1
- Complement-fixing autoantibody**
 - anti-heart mitochondria autoantibodies produced in dogs following MI, 862
- Computer analysis**
 - model of cardiac muscle dynamics, 184
- Compound D600**
 - effect of beta-adrenergic stimulation on myocardial adenine nucleotide metabolism, 536
- Conduction**
 - effect of verapamil on AV nodal conduction, 413
 - effects of coronary artery occlusion on canine Purkinje fibers, 391
 - functional refractory period and conduction in A-V node, 204
 - supernormal excitability and conduction in His-Purkinje system in dogs, 782
- Conduction disorders**
 - activation studies following experimental hemiblock in dogs, 752
 - functional refractory period and conduction in A-V node, 204
- Conduction time**
 - measurement of sinoatrial, by premature atrial stimulation, 935
- Contractility**
 - cardiopressant effects of beta-blockers, 272
 - cyclic AMP and calcium in guinea pig hearts, 316
 - effect of alcohol on calcium transport, 33
 - effect of verapamil on myocardial contractility, 439
 - instantaneous pressure-volume relationships and their ratio in excised, supported canine LV, 117
 - mechanical activation of mammalian heart muscle in calcium- and strontium-containing solutions, 345
 - reversible microsome phosphorylation, 298
 - stimulation of vascular smooth muscle by Na^+ , K^+ -ATPase by vasodilators, 601
 - ultrastructural basis of cardiac length-tension relations, 517
- Converting enzyme inhibitor**
 - renin-angiotensin system and aldosterone secretion during sodium depletion, 615
- Copper**
 - content and exchange in mammalian hearts, 67

Coronary arteries

- collateral
 - natural history of development, 335
 - transmural gradient of retrograde collateral blood flow in acutely ischemic canine myocardium, 365
- concurrent flow model for extraction during transcapillary passage, 483
- local control of vascular tone, 681
- occlusion
 - cardiodepressant effects of beta-blockers, 272
- occlusion
 - coronary collateral blood flow, 365
 - coronary vascular response to ischemia in awake dog, 527
 - effects of temporarily restricting arterial inflow and of coronary occlusions lasting one and two cardiac cycles, 702
 - effects on canine Purkinje fibers, 391
 - myocardial blood flow by residue detection in man, 826
 - regional myocardial function during, and its modification by pharmacologic agents in dogs, 896
 - vascular response to ischemia, 527

Coronary blood flow

- reactive hyperemia in dog heart, 702
- regulation of, 702

Corticosterone secretion

- renin-angiotensin system and aldosterone secretion during sodium depletion, 615

Cranial tibial artery

- muscle afferents and peripheral vessels, 177

Creatine phosphate

- recovery from cardiac bypass and elective cardiac arrest, 448

Creatine phosphokinase

- protective action of methylprednisolone in myocardial ischemia, 44

Cremaster muscle

- calcium ion-hydrogen ion interactions, 890

Crista terminalis

- measurement of sinoatrial conduction time by premature atrial stimulation in rabbits, 935

Cross-bridge compliance

- model of cardiac muscle dynamics, 184

Cyanide

- vascular effects of procaine amide, 948

Cyclic adenosine monophosphate (AMP)

- and calcium in guinea pig hearts, 316
- possible mechanism for control of microsomal calcium transport in heart muscle, 298
- reversible microsome phosphorylation, 298
- stimulation of vascular smooth muscle by Na^+, K^+ -ATPase by vasodilators, 601

Cytochrome oxidase

- cardiomegaly in hypertensive rats, 102
- copper content and exchange in mammalian hearts, 67

D**Deoxycorticosterone**

- renin depletion and autoregulation, 400

Deoxyribonucleic acid

- cardiac hypertrophy in SHR, 775
- cardiomegaly in hypertensive rats, 102

Depolarizations

- cyclic AMP and calcium in guinea pig hearts, 316
- premature, with long coupling intervals and slow ventricular tachycardia, 464

Dextran

- microvascular dispersion of indicator, 580

Diabetes

- altered myocardial function and metabolism in, 222

Diastolic pressure

- characteristics of aortic diastolic pressure decay, 56

Diastolic stiffness

- LV stiffness associated with chronic pressure and volume overloads, 793

Diazoxide

- stimulation of vascular smooth muscle Na^+, K^+ -ATPase by vasodilators, 601

Diffusible indicators

- myocardial blood flow by residue detection in man, 826

Digitalis

- dissociation of positive staircase (Bowditch) from ouabain-induced positive inotropism, 439
- effect on carotid sinus baroreceptor activity, 247

5,6-Dihydroxytryptamine (5,6-DHT)

- in experimental neurogenic and renal hypertension, 504

Dissociation constants

- adrenergic receptors in brain vessels, 835

Dopamine

- catecholamines and hemodynamics in quadriplegia, 850
- orthostatic dysregulation in hypertension, 290
- usual blood pressure, catecholamines, renin and, 281

E**Edema**

- effect of ischemia on capillary pressure and porosity, 77

Elastic fibers

- deleterious effects of hypertension on diet-induced atherosclerosis, 474

Electrocardiography

- cardiac effect of physical training in dogs, 883
- coronary occlusion arrhythmias, 372
- left anterior hemiblock in dogs, 752
- ST segment elevation, protective action of methylprednisolone in myocardial ischemia, 44

Elastance

- frequency response of isolated segments of canine carotid arteries, 742

Electrograms

- coronary occlusion arrhythmias, 372

Electrolytes

- effects of sugars on sympathetic transmission, 553
- vascular effects of, 890

Electromagnetic flowmeter

- coronary vascular response to ischemia, 527

Electron microscopy

- lipoprotein uptake by cultured aortic cells, 136

Electrophysiological studies

- A-V node of rabbit heart, 909
- functional refractory period and conduction in A-V node, 204

Endothelial cells

- norepinephrine uptake by perfused rat lung, 670

Epicardial mapping

- left anterior hemiblock in dogs, 752

Epinephrine

- functional refractory period and conduction in A-V node, 204
- orthostatic dysregulation in hypertension, 290
- usual blood pressure, catecholamines, renin and, 281

Ethacrynic acid

- macula densa and renin release, 307

Excitability

- supernormal excitability and conduction in His-Purkinje system in dogs, 782

Excitation-contraction coupling

- effect of alcohol on calcium transport, 33

Exercise

- cardiac effects of physical training in dogs, 883
- potassium ions and exercise hyperemia, 384

Extrasystole

- functional refractory period and conduction in A-V node, 204

F**Fat deposition**

- deleterious effects of hypertension on diet-induced atherosclerosis, 474

Fatty acids

- cholesteryl ester synthesis in atherosclerotic aorta of rabbits and monkeys, 692

Femoral artery

- local control of vascular one, 681

Fibrillation

- recovery from cardiac bypass and elective cardiac arrest, 448
- ventricular, excitability and arrhythmias, 464

Fistulas

- regression of LV dilation and hypertrophy, 127

Fludrocortisone

- urinary kallikrein excretion in hypertensive man, 820
- urinary kallikrein excretion in normal man, 812

Fluid dynamics

measured turbulence and its effect on thrombus formation, 608

Force-velocity-length relationship

strontium and mammalian heart muscle, 345

Frank-Starling mechanism

regional myocardial function during coronary occlusion, 896
ultrastructural basis of cardiac length-tension relations, 517

Frequency-response curves

at transmural pressures, 742

G**Ganglionic blockade**

vascular effects of procaine amide, 948

Gastrointestinal tract organs

hemodynamic patterns in neurogenic hypertension, 646

Gel electrophoresis

cardiac myosin ATPase of rat and mouse, 15

Geon-Pevikon block electrophoresis

canine plasma lipoproteins, 713

Glomerular filtration rate

impaired autoregulation of blood flow and, in isolated dog kidney depleted of renin, 400

Glucocorticoids

protective action of methylprednisolone in myocardial ischemia, 44

Glucose

relationship of glucose metabolism to adrenergic transmission in rat mesenteric arteries, 553

 β -glucuronidase

protective action of methylprednisolone in myocardial ischemia, 44

Glycoproteins

altered myocardial function in diabetes, 222

Gracilis artery

muscle afferents and peripheral vessels, 177

Gracilis muscle

effects of procaine amide on, 948

H **β -haloalkylamines**

adrenergic receptors in brain vessels, 835

Heart failure

in shock, 805

Heart rate

atrial stretch and vascular resistance, 24
autonomic nervous system and benign essential hypertension, 281
cardiac effect of physical training in dogs, 883
central serotonin and circulatory control, 504
effect of verapamil on myocardial contractility, 439
functional refractory period and conduction in A-V node, 204

Hemiblock

activation studies following experimental hemiblock in dogs, 752

Hemodynamics

neurogenic hypertensive rabbits, 636, 646
regression of LV dilation and hypertrophy, 127
sinoaortic denervation hypertension, 636
turbulence and thrombosis, 608

Hemophilia

role for antihemophilic factor in hemostasis, 1

Hemorheology

turbulence and thrombosis, 608

Hemorrhage

subendocardial hemorrhage and necrosis, 805

Hemostasis

antihemophilic factor in, 1
recent advances in study of, 1
relationships between complement and blood coagulation, 1

Henylephrine

vascular effects of procaine amide, 948

Hexamethonium

vascular effects of procaine amide, 948

Hind-limb deafferentation

muscle circulation during sleep, 625

His bundle system

functional refractory period and conduction in A-V node, 204
supernormal excitability and conduction in, 782

Histamine

cyclic AMP and calcium in guinea pig hearts, 316

Hormonal studies

circulatory and hormonal responses to upright posture in hypertension, 290

Humoral factors

controlling vascular resistance in SHR, 764

Hydralazine

cardiac hypertrophy in SHR, 775

Hydrogen ion

calcium ion-hydrogen ion interaction, 890

5-Hydroxytryptamine

vascular effects of procaine amide, 948

Hyperemia, coronary

coronary flow with aortic insufficiency, 238
potassium ions and exercise hyperemia, 384
reactive. *See* Reactive hyperemia

Hyperlipidemia

canine plasma lipoproteins and atherosclerosis, 722

Hyperresponders

canine plasma lipoproteins and atherosclerosis, 722

Hypertension

accelerated induction of two-kidney hypertension in rats and renin-angiotensin sensitivity, 734
cardiac hypertrophy in SHR, 775
cardiomegaly in hypertensive rats, 102
catecholamines and hemodynamics in quadriplegia, 850
critical role of renal function curve in arterial blood pressure control, 159
deleterious effects on diet-induced atherosclerosis, 472
dietary pulmonary, 657
essential
and autonomic nervous system, 281
circulatory and hormonal responses to upright posture, 290
increased metabolic turnover rate and transcapillary escape rate of albumin, 544
urinary kallikrein excretion, 820
usual blood pressure and catecholamines, 281

Goldblatt

comparison of angiotensin II antagonist and antiserum infusion with nephrectomy in rats, 325
deleterious effects of hypertension on diet-induced atherosclerosis, 474

orthostatic dysregulation in, 290

pulmonary

angiotensin and, 256
dietary, 657
role of 5,6-DHT in experimental neurogenic and renal hypertension, 504
sinoaortic denervation
regional and system hemodynamic patterns in rabbits with neurogenic hypertension, 636
systems analysis approach to blood pressure control and, 159
usual blood pressure, catecholamines, renin and their interrelationships, 281
See also Blood pressure

Hypertrophy, cardiac

adrenergic stimulation of nucleotide synthesis, 536
cardiomegaly in hypertensive rats, 102
copper content and exchange in mammalian hearts, 67
LV stiffness associated with pressure and volume overloads, 793
regression of LV dilation and, after removal of volume overload, 127
in spontaneously hypertensive rats, 775

Hypothermia

recovery from cardiac bypass and elective cardiac arrest, 448

Hypoxanthine

inosine production and myocardial function, 111
release of adenosine from ischemic brain, 262

Hypoxia

angiotensin and pulmonary hypertension, 256
dietary pulmonary hypertension and, 657
